Subject: Ex parte reexamination request fees

To whom it may concern;

I am concerned about the proposed fee changes I have read about. Are you really considering a raise from \$2,520 to \$17,750.... really???

Have some decency and please keep any rate increases nominal. I am not a large corporation or government entity. I have one business partner and have invested approximately \$30,000 over two trying to get two patents. A fee increase of this size will do irreputable harm to those of us who are private citizens funding our dreams out of our household budget.

Sincerely,

Greg Harrison
